

The **Award Winning**, "A Taste of Alaska Lodge" is located 15 minutes from downtown Fairbanks or 20 minutes from the Fairbanks International Airport. The Main Lodge, Log House and Annex are situated on 280 sunny hillside acres. Massive spruce trees were logged from the homestead and crafted into the unique structure of A Taste of Alaska Lodge. The 7,000 square foot natural log building, completed in 1995, is decorated with antiques and Alaskan collectibles. The original homestead has been in the family since 1947.

Our Pond

The pond was started in 2003. 50,000 gallons of water continuously circulate through a sluice box and hydraulic nozzle, both used for mining. The pond is a perfect setting for your outdoor wedding. Moose frequent the pond for cooling off on our warm summer days.
